

Threat by US Marshals Following Request for Correction of False Docket at the US Court, California

By Human Rights Alert, NGO

Dated: Jan 02, 2011

In both threats the US Deputy Marshal Darcy Smith was employed to suppress claims of judicial corruption at the US District Court, Southern District of California.

Threats by US Marshals, Related to Allegations of Judicial Corruption at the US District Court, Central District of California, Reported to Harvard Law School "Citizen Media Law Project"

Los Angeles, January 2 - Human Rights Alert (NGO) and Joseph Zernik, PhD, filed report with the Harvard "Citizen Media Law Project" of threat by US Deputy Marshal on behalf of the US District Court, Central District of California, against Dr Zernik.

The threat against Dr Zernik followed requests, which were filed with the Clerk of the Court Terry Nafisi and the Chief Judge Audrey Collins, US District Judge, Central District of California, and were also published online, to correct false PACER dockets, pursuant to the Code of Conduct of US Judges.

The requests for correction of the PACER dockets pertained to litigations in Zernik v Connor et al (2:08-cv-1550) and Fine v Sheriff (2:09-cv-01914), both of which originated from claims of widespread corruption of the Superior Court of California, County of Los Angeles.

In the former case, US Judge Virginia Phillips appeared as presiding judge, and in the latter - US Judge John Walter. In both cases US Magistrate Carla Woehrle appeared as well. The evidence showed that neither the judges, nor the magistrate, appeared with a valid Assignment/Referral Order. Absent valid Assignment/Referral Order, judges or magistrates lack judicial authority in a case.

In both cases, judgments were published as "entered" in the online PACER dockets, but later it was found that the judgments were issued with invalid certificates of authentication/attestation by the Clerk of the Court. Absent valid authentication/attestation by the clerk, a judgment is void. However, the online PACER dockets would mislead a reasonable person to conclude that the judgments were valid and effectual court records.

In both cases, the Clerk of the Court refuses to certify the PACER dockets.

In both cases, no corrective actions have been taken to this date regarding the false and deliberately misleading online PACER dockets.

The "Citizen Media Law Project" of Harvard Law School previously reported a threat by US Deputy Marshal Darcy Smith against a blog publisher, who used crude language in protesting the conduct of US Judge A Howard Matz.

In both threats the US Deputy Marshal Darcy Smith was employed to suppress claims of judicial corruption at the US District Court, Southern District of California.
